FROM IDEA TO INNOVATION

The Reinvented Pool

Choosing a swimming pool often means juggling quality, speed, and cost. A traditional construction requires time, a substantial budget, and complex logistics. With Bayto Pools, choose a sturdy, precast concrete pool that is delivered turnkey.

About Us

Bayto Pools is, above all, a family business. With over 50 years of experience in the pool industry, we have designed a product that completely rethinks the installation of concrete pools.

In this photo, brothers and innovators Dave and Carl St-Jean stand proudly in front of the very first successful pool. After years of testing and pushing the boundaries, they have created something that will transform the industry forever.

OUR PRE-CAST CONCRETE POOLS

- We offer three rectangular sizes (8' x 16', 8' x 18', 8' x 20'). Our pools are also ideal for smaller areas or to allow you to keep most of your space free.
- Our pools are sold with a premium filtration system (variable speed pump, cartridge filter, salt system) as well as with an LED light.
- We offer you several choices of reinforced membranes: a high-end and very durable coating.
- Due to their monolithic cement shell, Bayto pools have the particularity of being able to be above-ground, semi-inground or fully in-ground.

AVAILABLE IN 3 SIZES

BENEFIT FROM AN INSTALLATION IN-GROUND, SEMI IN-GROUND, OR FULLY ABOVE-GROUND.

IN-GROUND

SEMI IN-GROUND

FULLY ABOVE-GROUND

POOL INTERIOR FINISHING

EVERY BAYTO POOL IS DELIVERED WITH A RENOLIT REINFORCED MEMBRANE

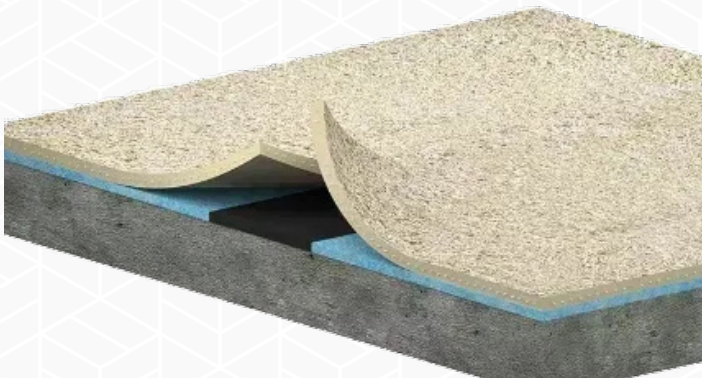

Our 3D RENOLIT Alkorplan finish delivers a luxurious high-end look, inspired by natural stone textures. With a 2 mm-thick dual-layer construction and reinforced polyester mesh, it offers unmatched durability and a 100% watertight shell guarantee.

WHAT IS A PVC REINFORCED MEMBRANE?

The RENOLIT ALKORPLAN pvc reinforced membrane is composed of: 2 flexible sheets of plasticized polyvinyl chloride (PVC-P), that ensure total, guaranteed and durable watertightness.

These 2 sheets have a polyester mesh inside, which gives the whole a great mechanical resistance and durability, without losing the elasticity and flexibility necessary to adapt to any shape or corner of the pool.

BUTT WELDING

The specialized butt welding technique we use guarantees aesthetics and integrity in your project.

This technique allows us to weld different sections of the reinforced membrane in your Bayto pool while avoiding visible joints or excess thickness for a clean and uniform finish.

OUR ACCESSORIES

Make your life easier with our pre-assembled equipment: pump, filter, salt system, and connected lighting.

MOOV VARIABLE SPEED PUMP

Take control of your energy consumption!

Thanks to the Moov AI pump's simplified interface, you can easily program the timer yourself. You can therefore vary the power of your pump throughout the day.

Unparalleled silence

Quieter than a refrigerator, it brings you the peace and quiet you deserve. Enjoy your pool in complete peace.

Take control of your power consumption!

With the simplified interface of the Moov AI pump, you can easily schedule the timer yourself. This allows you to vary the power of your pump throughout the day.

LED COLOR LIGHT

- LED pool light for pool jets, with threaded connection for 1-1/2" jets.
- Available in colors: white, white/blue and RGB (color).
- We suggest that the lighting cable be installed in conduit where the connection is in a junction box.
- Cable lengths of 7.5 and 30 meters are available.
- A certified Class 2 low voltage transformer specific to swimming pools is required to connect this light.

MOOV 50,000 BTU ELECTRIC HEATER

The Moov Inverter Electric Heater is a high-efficiency heating solution designed to provide consistent warmth while reducing energy consumption. Featuring advanced inverter technology, it automatically adjusts power output to maintain a stable room temperature, ensuring both comfort and cost savings. Its sleek, modern design makes it suitable for any home or office, while its quiet operation and rapid heat-up time deliver a reliable and convenient heating experience. Ideal for those looking to efficiently heat small to medium-sized spaces.

MOOV JUSTSALT SYSTEM

- Automated sanitization: Converts salt into chlorine, providing a continuous, self-replenishing supply and eliminating the need for manual chlorine additions.
- Real-time monitoring: Tracks and displays your pool's temperature, salt level, cell life, and pH level.
- Bluetooth control: Connects to your smartphone via the ePool app for remote monitoring and adjustments.
- Hybrid mode: Compatible with both normal salt levels (around 3000 ppm) and low salt levels (around 1500 ppm).
- Self-cleaning cells: The cells use polarity reversal to limit calcium buildup, which extends their lifespan.
- Flow detection: Automatically reduces chlorine production when the pool is not in use, helping to prolong the cell's life.
- Boost mode: Allows for a temporary increase in chlorine production to 125% for 24 hours.

PLUG AND PLAY KIT

Bayto pools arrive at the construction site pre-plumbed for maximum convenience, saving you time and effort. To make installation even easier, we also offer delivery of all pool equipment pre-assembled on a stand.

All that's left to do is connect the pool's plumbing to the stand, complete the electrical wiring, and dive in!

MOOV 200 SQ FT CARTRIDGE FILTER

The Moov 200 Sq. Feet Cartridge Filter is a high-performance filtration system designed to provide superior water clarity for Bayto pools.

With a large 200 sq. ft. filtration surface, it efficiently captures debris and particles, ensuring clean and clear water with minimal maintenance.

Its user-friendly design allows for easy cartridge replacement and maintenance, making it an ideal choice for residential and small commercial pools.

JANDY 260,000 BTU PROPANE/NATURAL GAS HEATER

Versa Plumb® Ready

Installation in the Versa Plumb system reduces plumbing costs and increases hydraulic efficiency.

Flexible Installation. Easy Servicing.

Top is easily removed and rotated 180 degrees for increased accessibility; includes flip up electrical panel for more compact pool pad setups.

Keeps Critters Out

No more chewed up wires. The JXiQ® is made with a fully encased shell to protect against rodent intrusion and damage.

Ultra-Compact

Lightweight Design

Fits on a 2' x 2' pad and is 38% lighter with a 28% smaller footprint.*

*Compared to popular competitor models.

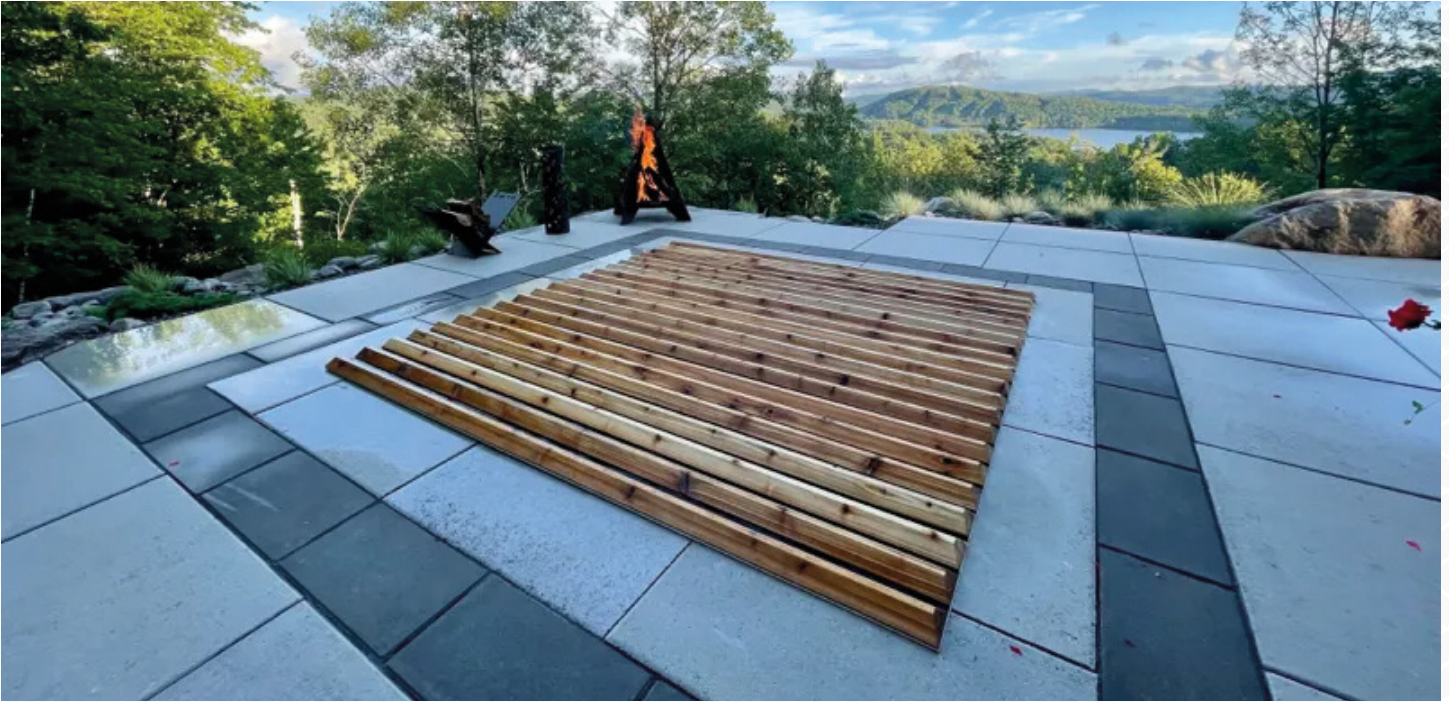

CLEANING ROBOT

A cleaning robot is a super-effective solution for keeping your Bayto pool clean. Our robots clean the floor, walls, and waterline.

They filter out fine and ultra-fine debris, leaving your pool sparkling clean.

CEDAR ROLL COVER

The Roll-Up Cedar Cover for plunge pools is a stylish and functional solution designed to protect your pool while adding a natural touch. Made from durable cedar wood, it offers excellent resistance to the elements and is easy to roll up for quick access.

This cover helps maintain water temperature, reduces debris, and enhances the aesthetic of your Bayto pool. Its user-friendly design ensures simple operation and long-lasting performance, making it an ideal choice for both functionality and visual appeal.

WINTER COVER

Quick and easy to install, our safety covers will protect your pool, your family, and your pets during the winter, as they can support the weight of a human.

In addition, your reinforced membrane will be protected against UV rays, and your pool will be completely clean when it's time to start up in the spring.

AUTOMATIC COVER

A Coverstar automatic cover acts as a passive solar heater and can increase your water temperature by 8 to 10 degrees.

Unlike solar covers, automatic covers completely seal your pool with the push of a button! Sealing your pool when not in use prevents water evaporation, the main cause of heat loss.

SWIMMING SYSTEM IN PLACE

The Swimlane Swimming Pool System is a versatile and space-saving solution designed for swimmers who want to train or exercise in a smaller pool.

Using a resistance system, the Swimlane allows swimmers to swim continuously in place, providing an effective workout without the need for a large pool. It features adjustable resistance levels to cater to different fitness goals and skill levels, making it ideal for both beginners and advanced swimmers.

Compact, easy to install, and suitable for Bayto Pools, the Swimlane offers an efficient way to enjoy a full-body swim workout at home.

EXCITING NEWS FROM BAYTO POOLS!

We've got some great new things coming your way — including our brand-new line of spas! Stay tuned for more updates and get ready to elevate your relaxation experience.
